

The Story

Five years ago in 2017 we began discerning how God wanted Sanctuary to best steward this piece of property at Due West and Mars Hill Road for His glory. Our parking lot was overflowing and our facility was beginning to limit the ministry that God was calling us to as a Faith Family. The first step was taken in November of 2018 with the expansion of our parking lot and the creation of a green space for our Faith Family to gather and play. The second phase launched in November of 2019 as construction began to expand the back of our facility to create a secure preschool space, a new gathering place for our students, along with installing an elevator, and making many other updates to our facility to better serve the needs of the ministry going forward.

Today, after 30 months of construction and a global pandemic, we are so close to realizing the vision that God gave us as a Faith Family. We invite you to walk through this new space and consider how God desires to use this facility to proclaim the Gospel to our neighborhood. We are expectant of how transformation will happen within these walls and how eternity will be impacted.

The Need

Throughout this project, we are committed to build with the cash God provided instead of taking a loan. The estimated total cost for the expansion is \$3.6 million. Having already paid \$3 million, we only need \$600k more. We are 83% of the way to finish line! \$200k will allow us to finish the downstairs in the next couple of months and the additional \$400k will finish the upstairs.

The Invitation

Today, we invite you to join us in 3 ways...

1. Pray that God will provide the finances needed and that he would bless this tool for ministry.
2. Grab a sharpie and write your prayers and/or Scriptures on the floors.
3. Consider how God may be prompting you to give toward the Seed Offering today.

Scan here or text "seed" to 84321 to give.

For more information, updates, and pictures of our progress, go to www.seedoffering.org.

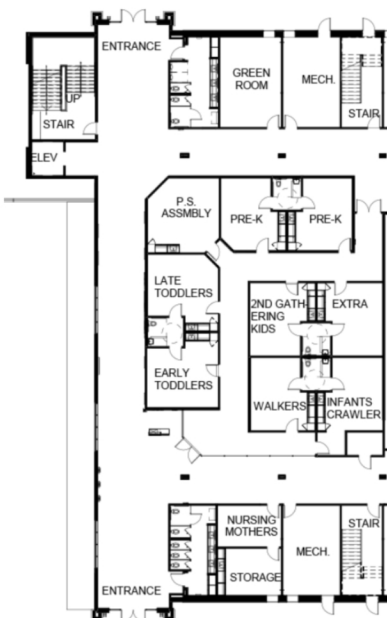

The Space

What Changes With Downstairs Finished?

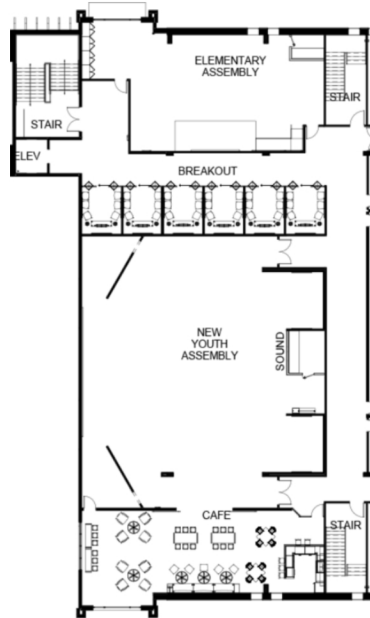

- Preschool kids move into new and secure classrooms
- Functionality of entire first floor of building
